### Name of Horse

Name of driver; driving colors; number of starts, firsts, seconds, thirds, and Universal Driving Rating (the UDR is the sum of the number of wins times 9, plus seconds times 5, plus thirds times 3, divided by the number of starts).

$$\text{UDR} = \frac{(1\text{sts} \times 9) + (2\text{nds} \times 5) + (3\text{rds} \times 3)}{\text{Total Starts}}$$

### Color, sex, age, Sire—Dam—Sire of Dam

#### Owner, owner's home city and state

**Name of trainer; UDR average** (figured in the same manner as for the driver). The UDR is a good way to consider the relative performance of a driver or trainer from among others with fewer or greater number of starts.

**Two year summary**, showing: year, starts, 1sts, 2nds, 3rds, yearly money won, fastest winning mile of the year, track where that mile was won, and the size of that track.

**Life Summary**, of: Career earnings, age at which fastest win was taken, that time, and size of track on which it was taken.
